Each hole of the Raptor Bay Golf Club was carefully created to blend with the environment, leaving a beautiful course with natural surroundings. With no residential sites on the property, the natural surroundings encourage the appearance of protected wild creatures including the American Bald Eagle, Great Blue Herons, Snowy Egrets and even the very shy Whooping Crane. The tournament quality course features wide fairways with one height of cut throughout and five sets of tees to give players of every level a memorable outing.

Experience the art of glass in motion with Chihuly trained artist, Conrad Williams. A Florida native, he has been creating with glass since 1998. After receiving his BFA from California College of the Arts in glass and sculpture, he settled in the Northwest after completing a yearlong internship with Ben Moore and Dale Chihuly. Shortly after the birth of their first son, Conrad and his wife Erin returned to their hometown, Naples, FL to pursue their creative endeavors.

You will learn the basic steps it takes to make an ornament or paperweight. You will be introduced to the tools and equipment and given a brief history of glassblowing. With Conrad's help, you will shape, cut and blow out your form. You will be able to select from a variety of colors. Lessons include all the materials you need to create your work.
