

Now you can access members-only content while “on the go” with our new iPhone app. This free download enables iPhone users to log in, search the member directory, browse events, read website articles and update profiles.

### **Search / Browse The Directory**

You can search or browse through the member directory to find your peers. When you find the person you were looking for, tapping their email address will launch the phone’s email or tapping the phone number will launch a call.

### **My Profile**

You can view and edit your directory profile to keep your information up to date.

### **Events**

You can see a list of all upcoming events, view event details and add them to your phone’s calendar.

### **Articles**

You can read articles from the website through the app, allowing you to keep up with the latest news and announcements while on the move.
