

# TABLE OF CONTENTS

		PAGE NO.
<b>SECTION I</b>	<b>RAIL LIFE:</b> .....	1
	Changing Face of Rail Replacement .....	3
	Replacing Branchline Rail .....	5
	Using Rail Information .....	7
	More Rail Reliability Issues.....	9
	Extending Rail Life; Recent Experiences.....	11
	Extending Wheel/Rail Life: The Australian Experiences.....	13
<b>SECTION II</b>	<b>RAIL FATIGUE:</b> .....	15
	Rail Fatigue - When to Relay .....	17
	Predicting Rail Defects .....	19
	Separating Shelling and Spalling.....	21
	Rail Steel Composition and Fatigue Life .....	23
	Detection of Rail Steel with Increased Fatigue Potential.....	25
	Crack Growth in Rails.....	27
<b>SECTION III</b>	<b>RAIL WEAR &amp; LUBRICATION:</b> .....	29
	“Greasing” the Way to Savings .....	31
	Linking Lubrication and Rail Wear, Fatigue .....	33
	Rail Lubrication Caveats.....	35
<b>SECTION IV</b>	<b>RAIL GRINDING:</b> .....	37
	Rail Surface Maintenance: Combining Old and New .....	39
	Profile Rail Grinding.....	41
	Preventive Rail Grinding .....	43
	More Rail Grinding Economics.....	45
	Corrective vs. Preventive Grinding: Recent Results.....	47
<b>SECTION V</b>	<b>TRACK STRUCTURE:</b> .....	49
	Testing Track Strength .....	51
	Gage Widening Strength.....	53
	Modeling Track Component Life .....	55
	Effect of Track Stiffness on Vehicle Rolling Resistance .....	57
	Track Modulus vs. Track Structure .....	59
	Track Modulus Characteristics .....	61
	Continuous Measurement of Track Gauge Strength.....	63
	Lateral Ballast Resistance .....	65
	Track Structure Sensitivities .....	67
	Vertical Wheel Loads: The Distribution on Cross-Ties .....	69
	Distribution of Vertical Wheel Loads: Ballast and Subgrade .....	71

<b>SECTION VI</b>	<b>TRACK GEOMETRY:</b> .....	73
	What is Track Quality .....	75
	Planning Through Track Geometry - Part I.....	77
	Planning Through Track Geometry - Part II.....	79
	TQI's - Part I, Statistical.....	81
	TQI's - Part II, Alternatives .....	83
	Effect of Axle Load on Geometry Measurements .....	85
<b>SECTION VII</b>	<b>MAINTENANCE PLANNING:</b> .....	87
	Changes in Track Maintenance Planning.....	89
	Forecasting Maintenance Needs.....	91
	Track Replacement Needs as a Function of Traffic Densities.....	93
<b>SECTION VIII</b>	<b>WHEEL/RAIL DYNAMICS:</b> .....	95
	Wheel/Rail Impact Loading.....	97
	Track Stiffness and Impact.....	99
	The Effect of L/V .....	101
	Dynamic Loading of The Track Structure Part I – Vertical Loads .....	103
	Dynamic Loading of The Track Structure Part II – Lateral Loads.....	105
	Dynamic Loading of Track Structure Part III – The Effect of Premium Suspensions .....	107
<b>SECTION IX</b>	<b>TRACK BUCKLING:</b> .....	109
	Vehicle Dynamics and Track Buckling .....	111
	Temperature and Rail Laying .....	113
	Train Energy's Effect on Track Buckling.....	115
<b>SECTION X</b>	<b>RAIL INSPECTION:</b> .....	117
	Economics of Rail Inspection.....	119
	Misreading Rail Flaw Size.....	121
	Monitoring the Railhead .....	123
	Effective Rail Inspection.....	125
	EMATs For Rail Inspection? .....	127
	Scheduling Rail Testing .....	129
<b>SECTION XI</b>	<b>RAIL MISCELLANEOUS:</b> .....	131
	Field Welding Rail .....	133
	Rail Corrugations on Freight Railroads.....	135
	Types of Rail Corrugations .....	137
	Economics of Alternate Repair Welding Techniques .....	139

<b>SECTION XII</b>	<b>TIES AND FASTENERS:</b> .....	141
	Rail Fastener Performance: What About Strength?.....	143
	Rail Fastener Performance: The Intangibles .....	145
	Missing Fasteners Vs. Gage Strength.....	147
	Examining Wood Tie Failure.....	149
	Extending the Life of Wood Crossties.....	151
	Wood Tie Life: Part I Average Tie Life.....	153
	Wood Tie Life: Part II Distribution of Failed Ties.....	155
	Strength Properties of Wood Crossties.....	157
<b>SECTION XIII</b>	<b>BALLAST AND SUBGRADE:</b> .....	159
	The Many Faces of Ballast Testing .....	161
	Geotextile Performance .....	163
	The Many Faces of Ballast Fouling .....	165
	Using Radar to Investigate Roadbed .....	167
	Cone Penetrometer Testing of Roadbed.....	169
	Effect of Material Quality on Ballast Life.....	171
	The Cost of Ballast Maintenance .....	173
	Effects of Tamping on Ballast Degradation .....	175
	Stone Blowing: An Alternative Approach to Track Surfacing.....	177
	Identifying the Sources of Ballast Fouling.....	179
<b>SECTION XIV</b>	<b>DERAILMENTS:</b> .....	181
	Rail Defect Type vs. Derailment Risk.....	183
	Track-Caused Derailments .....	185
<b>SECTION XV</b>	<b>LIFE CYCLE COSTS:</b> .....	187
	M/W First Costs vs Life Cycle Costs.....	189
<b>SECTION XVI</b>	<b>BRIDGES:</b> .....	191
	Fatigue Life of Steel Bridges .....	193
	Fatigue Life of Bridges .....	195
<b>SECTION XVII</b>	<b>TURNOUTS:</b> .....	197
	Reducing Wheel/Rail Forces in Turnouts .....	199
	Improved Performance from “Premium” Turnouts .....	201
