March 2019

Dear Short Line Railroad Executive:

The Railway Tie Association is again conducting its annual survey of crosstie usage and demand. The survey benefits our industry and helps the American Short Line and Regional Railroad Association with its national and regional legislative agendas. It is our intention to obtain information about crosstie requirements for 2018 & beyond. This information will enable the crosstie industry to better serve the market and the short line and regional railroad industry achieve its goals for favorable infrastructure legislation.

*You may complete and submit this form by mail, fax or online. Our mailing address:*
